6. Additional documentation

The City of Tshwane may require other documents, such as site plans and traffic impact studies, to be submitted in support of the application before the application is finalised.

B. GENERAL

1. Applications will not be accepted for consideration if they are not prepared in accordance with paragraph 3 of this document. Incomplete applications are legally not acceptable and will unfortunately have to be returned to the applicant.
2. The motivating memorandum stipulated in Schedule 7 to the Regulations and required to be submitted in terms of Regulation 11 of the Ordinance (see paragraph 3.4 of this document) should assist the City of Tshwane in processing the application. This means that the motivating memorandum should -
 - 2.1 clearly indicate precisely what is required, for example -
 - that the coverage be increased to 72%;
 - that the height be increased from 19,00 m to 23,00 m;
 - that the floor space ratio be increased from 2,5 to 2,56;
 - that the "Residential" rights be changed to "Special" for offices;

- 2.2 indicate the necessity (need) and desirability of the application with regard to -
 - the Tshwane Town planning Scheme, 2008 and
 - the future development of the area (it should provide for the present and the future needs of the city, or a part of it, rather than just benefit a specific business).
- 2.3 contain a thorough motivation, from a town-planning point of view, of the proposed amendment (e.g, if an application for additional business floor area is submitted, the applicant must report on the business and population density in support of his or her application).
3. It is of the utmost importance that an applicant discusses any rezoning proposals with officials of the Regional Spatial Planning Section before submitting an amendment scheme. This will facilitate the processing of an application, and the applicant will benefit for the following reasons:
 - 3.1 By consulting the officials of the Regional Spatial Planning Section, an applicant will be informed of the policies the City of Tshwane has formulated for certain types of rezonings.
 - 3.2 Lengthy correspondence owing to uncertainties applicants may have when preparing the required scheme documents will be eliminated.
 - 3.3 An applicant will save considerable time if officials know of an application in advance. This will ensure that all the necessary conditions that need to be included in the scheme are reflected in the documents and that time is not wasted.
 - 3.4 It may happen, and has happened in the past, that an applicant finds that his or her scheme does not provide for certain land use rights/development controls after the scheme has been promulgated. If he or she consults officials in advance, these elements can be included in the scheme. In this regard it should be noted that section 61(1) of the Ordinance (subject to the provisions of Section 61(2)) prohibits a further amendment within a period of two years.
 - 3.5 **As an application for rezoning is a complex process, and as any deviation from the norms set by the Ordinance and Regulations may lead to a delay or even the rejection of the application, an applicant is advised, in his or her own interest, to appoint a town-planning consultant to prepare an amendment scheme.**
4. The applicant is advised to determine if the title deed contains any restrictive conditions beforehand and, if applicable, make the necessary application to have such condition(s) removed/amended.
